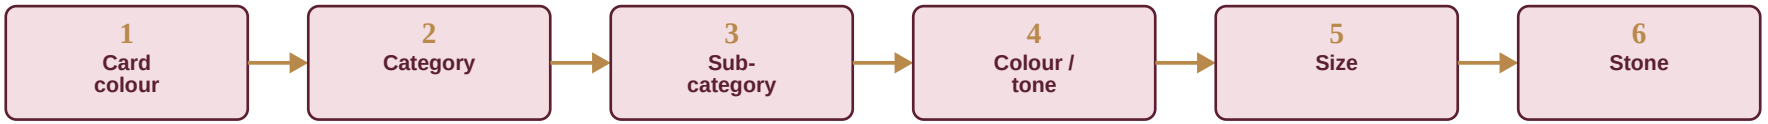
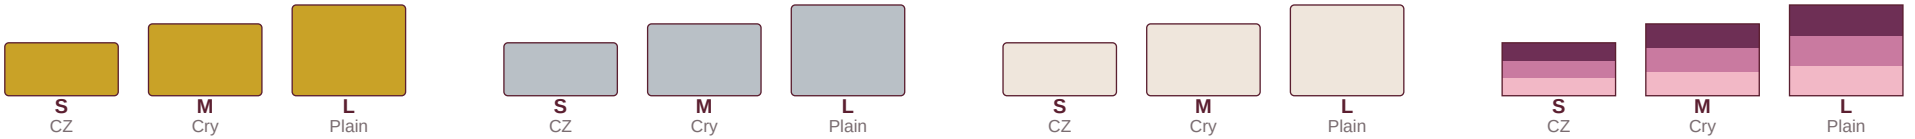
Display Sort Order — Visual Reference

How to read the hierarchy, one worked example, and panel allocation



Apply strictly in this order whenever a row holds more than one card. Store-wise exceptions are logged separately, not part of this sequence.

WORKED EXAMPLE — ER panel, white cards, "Studs" sub-category



Read left to right within each colour group: Small → Medium → Large. Stone finish (CZ / Crystal / Plain) shown for illustration — keep the same finish order at every size.

PANEL ALLOCATION — for a 3-panel fixture

PANEL 1

ER
